# COCOON BABY LAB

Ages from 4 up to 18 months old

10am - 5pm

COCOON

## BABY PLAY; EXPLORE YOUR SENSES

These classes concentrate on cultivating your baby's interest in the world via sensory exploration. Stimulating age-appropriate activities such as flashlight play and tummy time, help your child to build trust, security and emotional connection with the others.

## BABY MASSAGE

All different types of this technique (leg, belly, arm, colic - relief massage) benefit your baby's physical and emotional well - being by stimulating the baby's central nervous system, while relaxing the tension before a sweet nap.

## BABY YOGA

The experience of touch is the most generous stimulus that we can offer babies after birth. With customized yoga postures for flexibility and empowerment, movements that encourage growth and balance and relaxation techniques, your baby will stretch body, mind and feel more relax and happy.

## MUSIC

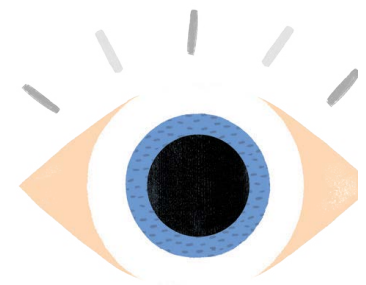

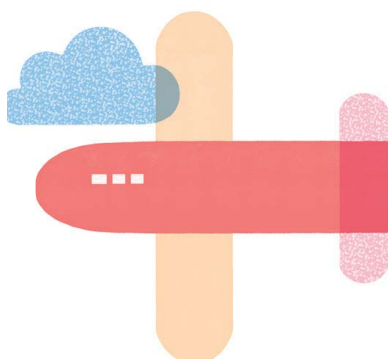

With an array of styles, our music classes will help your baby explore the power of rhythm, melody, tonality and beat while nurturing key physical, social and intellectual skills.

## MOVE AND FUN

Several activities like singing, dancing and games such as tower stacks, obstacle courses, crawl and chase and many more, will develop your child's coordinated movement abilities.

## INFORMATION ABOUT THE OPERATION

- Cocoon baby lab's operating dates and hours are the same as Cocoon's.
- Kindly note that you need to bring your own nappies and wipes.
- A snack (fresh blended fruits) will be provided to the children during the sessions.
- Lunch option is available with an additional cost.
